

Page 24-8

#### DCRM SERIES

- Modular housing
- 2 steps
- Settings by front potentiometers
- 3 LED indications.

Page 24-9

#### DCRL SERIES (EXPANDABLE)

- Flush-mount housing:
  - DCRL 3 - DCRL 5 (96x96mm/3.78x3.78")
  - DCRL 8 (144x144mm/5.67x5.67")
- 3/5/8 steps, expandable with EXP series modules (step increment, digital outputs, communication ports, etc.)
- Backlit icon LCD
- Ethernet communication interface (only for DCRL 8)
- Alarm codes with scrolling texts, programmable in 6 languages (Italian, English, Spanish, French, German and Portuguese)
- Independent voltage measurement input
- Suitable for low and medium voltage systems
- Capacitor overload protection
- Internal panel temperature sensor
- Voltage and current harmonic-content measurement up to 15th order
- Front optical USB and Wi-Fi communication port for PC, smartphone and tablet connection
- Programmable alarms
- Protection via 2-level password to prevent all undesired access
- Compatible with **Synergy** supervision and energy management software, **Xpress** configuration and remote control software and with the **Sami1** application for Android/iOS.

Page 24-10

#### DCRG SERIES (EXPANDABLE)

- Flush-mount housing: DCRG 8 - DCRG 8IND (144x144mm/5.67x5.67")
- 8 steps, expandable with EXP series modules (step increment, inputs and outputs, communication ports, GPRS/GSM modem, data memory, etc.) and with Master-Slave function
- 128x80 backlit graphic LCD, facilitating data reading even in poor lighting conditions and the display of system information clearly and intuitively
- Ethernet communication interface
- Texts in 10 languages: Italian, English, Spanish, French, German, Czech, Polish, Russian, Portuguese and one customisable
- Voltage measurement input independent of supply input
- Suitable for low and medium voltage systems
- Capacitor overload protection
- Internal panel temperature sensor
- Voltage and current harmonic-content measurement up to 31st order
- Suitable for dynamic power factor correction.
- Power factor correction by single phase (SPPFC)
- Capacitive reactive power factor correction (DCRG 8IND version)
- Front optical USB and Wi-Fi communication port for PC, smartphone and tablet connection
- Programmable alarms
- Protection via 2-level password to prevent all undesired access
- Calendar-clock with backup reserve energy.
- Logging of up to 250 events
- Compatible with **Synergy** supervision and energy management software, **Xpress** configuration and remote control software and with the **Sami1** application for Android/iOS.

Page 24-13

#### THYRISTOR MODULES

- 30, 50, 100kvar
- Suitable for dynamic power factor correction
- Current flow zero-crossing controlled connection-disconnection
- Over-temperature protection
- Over-current protection capacitor switching.

- Microprocessor supervision and control
- Accurate TRMS measurement circuit
- Automatic intelligent adjustment system
- Versions from 2 to 24 steps and up to 32 with Master-Slave function
- Versions with static outputs
- Versions for capacitive reactive power factor correction
- Use in cogeneration and medium-voltage systems
- USB, serial, Ethernet communication interfaces
- Modbus-RTU and ASCII communication protocols
- Thyristor modules for dynamic correction.

# ESSENTIAL AND PERFORMANCE TOO!

## DCRL 3 - DCRL 5

● **OPTICAL COMMUNICATION PORT**

The optical port on the front permits communication with PCs, smartphones and tablets through the USB and Wi-Fi standards for carrying out programming, diagnostics and data download without disconnecting power to the electrical panel.

● **USER INTERFACE**

The backlit icon LCD ensures excellent legibility as well as the texts for the display of measurements and description of alarms. The 4 navigation buttons are for settings and functions.

● **AN EXPANSION SLOT FOR EXP... SERIES MODULES**

● **EXPANDABLE UP TO 8 STEPS**

● **COMPACT SIZE**

The space taken by the housing does not increase (96x96x73mm / 3.78x3.78x2.87") even with the expansion module fitted.

● **FIXING SYSTEM**

The system of **fixing with clips** is simple, with a press to click into place and push to ensure hold over time. Correct application of the standard seal and clips in the panel ensures a front **IP54** protection degree.

● **EXPANSIBILITY**

Basic controller functionality can be extended easily using the EXP series expansion modules:

- digital outputs
- relay outputs to increase number of steps
- opto-isolated USB interface
- opto-isolated RS232 interface
- opto-isolated RS485 interface.

● **SOFTWARE COMPATIBILITY**

- **Sam1** Application for Android and iOS
- **Xpress** for configuration and remote control
- **Synergy** for supervision and energy management.

● **CHARACTERISTICS OF THE DCRL SERIES**

- **WIDE RANGE OF VOLTAGE MEASUREMENTS**

The wide measurement range between 50...720VAC L-L and between 50...415VAC L-N allows the controllers to be used in most applications.

- **SUITABLE FOR LOW- AND MEDIUM-VOLTAGE SYSTEMS**

The controllers can be used in medium-voltage systems thanks to the ability to set a voltage transformer ratio, obtaining measurements regarding the transformer primary value both for adjustment and for the display.

- **ALARM MESSAGES IN 6 LANGUAGES**

The alarm texts can be displayed in Italian, English, French, German, Portuguese and Spanish.

- **DEFECTIVE STEP**

The DCRL measures the percentage of residual power for each step, comparing it with the value set in the main menu. The defective step alarm is generated if this value is below the set limit.

## DCRL 8

### ● USER INTERFACE

The backlit icon LCD ensures excellent legibility as well as the texts for the display of measurements and description of alarms. The 5 navigation buttons are for settings and functions, while an LED indicates the alarms and the optical port for communication via USB and Wi-Fi.

### ● EXPANDABLE UP TO 14 STEPS

### ● OPTICAL COMMUNICATION PORT

The optical port on the front permits communication with PCs, smartphones and tablets through the USB and Wi-Fi standards for carrying out programming, diagnostics and data download without disconnecting power to the electrical panel.

### ● TWO EXPANSION SLOTS FOR EXP... SERIES MODULES

### ● ETHERNET COMMUNICATION INTERFACE

By using the expansion module with EXP 1013.

### ● CUSTOMISATION

An insert for labels customised with text, logos, codes, etc. is available, to be fixed onto the controller frames.

### ● COMPACT SIZE

Reduced profile and depth simplify installation of the power factor controller even in very compact electrical panels. The total depth of the controller is 73mm (2.87") inside the panel with the expansion modules installed.

### ● FIXING SYSTEM

The fixing system with metal screws guarantees excellent, lasting hold over time.

### ● HIGH PROTECTION RATING

The front of the controller and seal have been designed to ensure a front protection rating of IP65.

### ● EXPANDABILITY

Basic controller functionality can be extended easily using the EXP series expansion modules:

- relay outputs to increase number of steps
- digital outputs
- opto-isolated RS232 interface
- opto-isolated RS485 interface
- opto-isolated ETHERNET interface.

MAX  
2

### ● SOFTWARE COMPATIBILITY

- **Sam1** Application for Android and iOS
- **Xpress** for configuration and remote control
- **Synergy** for supervision and energy management.

### ● CHARACTERISTICS OF THE DCRL SERIES

#### - 5A OR 1A IN THE SAME CONTROLLER

A parameter can enable the controller for use with a 5A or 1A secondary current transformer.

#### - WHITE BACKLIT DISPLAY

It can be programmed to flash during alarm conditions.

#### - HARMONIC ANALYSIS

It includes voltage and current THD measurements and single harmonic measurement up to the 15th order and they can be shown on the display.

#### - MAINTENANCE INTERVALS

There are 2 counters: one to count the operating hours for the steps and the other for the number of interventions of each step. An alarm threshold can be set for both counters.

#### - BUILT-IN TEMPERATURE SENSOR

The internal temperature of the controller is monitored constantly by the built-in sensor. The user can program the thresholds to activate and stop the cooling fan and/or generate the temperature alarm.

# THE SOLUTION FOR ALL APPLICATIONS!

## DCRG 8

- **BACKLIT GRAPHIC LCD**  
High-legibility 128x80 pixels, with adjustable brightness.

- **OPTICAL COMMUNICATION PORT**  
The optical port on the front permits communication with PCs, smartphones and tablets through the USB and Wi-Fi standards for carrying out programming, diagnostics and data download without disconnecting power to the electrical panel.

- **CUSTOMISATION**  
There is a customisation slot available on the front panel for the description of the controller by adding texts, logos, codes, etc.

### ● COMPACT SIZE

Frame profile and reduced total depth simplify installation of the controller also in very compact electric panels.

### ● FIXING SYSTEM

The fixing system with metal screws guarantees excellent adhesion over time.

- **HIGH PROTECTION DEGREE**  
The controller front and the rear seal have been designed to warrant an IP54 protection degree.

### ● EXPANDABILITY

Basic controller functionality can be extended easily using the EXP series expansion modules:

- Relay outputs to increase the number of steps
- Opto-isolated static outputs (also for dynamic correction)
- Capacitor protection
- Digital and analog inputs and outputs
- Expandable up to 24 mixed outputs
- Opto-isolated RS232 interface
- Opto-isolated RS485 interface
- Opto-isolated ETHERNET interface with web server function
- Opto-isolated Profibus-DP interface
- GPRS/GSM modem
- Data memory, calendar-clock with backup reserve power for data logging.

- SUITABLE FOR POWER FACTOR CORRECTION USING CONTACTORS AND THYRISTOR MODULES
- INDEPENDENT POWER FACTOR CORRECTION FOR EACH SINGLE PHASE
- CAPACITIVE REACTIVE POWER FACTOR CORRECTION VIA INDUCTIVE STEP MANAGEMENT (WITH DCRG 8IND MODEL)
- SMS SENDING FOR ALARM CONDITIONS
- DATA SENDING BY EMAIL OR FTP SERVER
- WEB SERVER FOR DATA READING
- STREAMLINE DESIGN

The DCRG controller has an ergonomic design and, at the same time, particular care has been given to details.

### ● MASTER-SLAVE FUNCTION

The DCRG controller can control the outputs of other analog controllers in addition to its own steps. In this way, it offers a **Master-Slave** architecture. Up to 8 slaves can be controlled to create a system with a maximum of 32 steps.

Master

Slave 1

Slave 2

Slave 8

### ● WEB SERVER FUNCTION

By installing the **Ethernet** expansion module EXP10 13, the main measured values of the controller can be viewed by the most common web clients on the market compatible with Java, with no need to install any additional software on the PC.

### ● CAPACITOR PROTECTION

By adding the dedicated EXP10 16 expansion module, the DCRG controller can be equipped with additional capacitor protection functions. The module can measure the harmonic current values and the capacitor temperature on-site as well as detecting malfunction on any phase.

### ● 3 CURRENT INPUTS

- **Independent power factor correction** for each single phase
- Analysis of all electrical measurements in the system (multimeter).

### ● WIDE RANGE OF RATED VOLTAGE MEASUREMENTS

The wide measurement range between 100...600VAC allows the controller to be used in most applications.

### ● GSM/GPRS MODEM

With the EXP10 15 expansion module, the controller is equipped with a GSM/GPRS modem, which it automatically configures. This simplifies installation and wiring. Once a data-enabled SIM card is inserted, the controller can send alarm or event SMS and **e-mails** and data files can be transmitted to FTP servers.

### ● 5A AND 1A BOTH ON THE SAME CONTROLLER

By configuring a specific parameter, the controller can be enabled for use with either a 5A or 1A secondary current transformer.

### ● GRAPHS AND TEXTS IN 10 LANGUAGES

Display of waveforms, graphs and texts in 10 languages: Italian, English, Spanish, French, German, Czech, Polish, Russian, Portuguese and one customisable.

### ● SUITABLE FOR MEDIUM-VOLTAGE SYSTEMS

The controller can be used in medium-voltage systems thanks to the ability to set a voltage transformer ratio, obtaining measurements regarding the transformer primary value both for adjustment and for the display.

### ● SUITABLE FOR DYNAMIC (FAST) POWER FACTOR CORRECTION

Thanks to the EXP10 01 expansion modules with static outputs, thyristor-based dynamic power factor correction systems can be created where the reactive load varies rapidly over time. By taking advantage of the built-in relay outputs as well, a mixed traditional (relay) and dynamic system can be obtained.

### ● INDEPENDENT POWER FACTOR CORRECTION FOR EACH SINGLE PHASE (SPFFC)

In highly unbalanced three-phase systems, power factor correction by single phase can be implemented. The DCRG controller can monitor the  $\cos\phi$  of each single phase and correct through the joint use of single- and three-phase capacitor banks.

### ● CAPACITIVE REACTIVE POWER FACTOR CORRECTION (DCRG 8IND).

The DCRG 8IND version can connect both capacitors and inductors to achieve the desired  $\cos\phi$  should it be necessary to correct the capacitive reactive power factor as well.

### ● SOFTWARE COMPATIBILITY

- **Sam1** Application for Android and iOS
- **Xpress** for configuration and remote control
- **Synergy** for supervision and energy management.

### DCRM series

DCRM 2

Order code	Steps	Auxiliary supply voltage	Qty per pkg	Wt
	no.	[V]	n°	[kg]
Single and three-phase low-voltage systems.				
<b>DCRM 2</b>	2	380...415VAC	1	0.284

#### General characteristics

The DCRM allows the reactive current of a system to be controlled.

It can correct to the best  $\cos\varphi$  value possible, reducing the request for reactive current from the mains.

It can control the connection of two capacitor banks. Each one can be individually enabled and its power can be set through a dedicated trimmer.

It is also possible to adjust the time for connection and disconnection of the capacitors, thereby modifying the reaction speed of the system.

The controller can be used both in three- and single-phase wiring.

#### Operational characteristics

- Auxiliary supply voltage:
  - 380...415VAC standard
  - 220...240VAC and 440...480VAC on request
- Rated frequency: 50/60Hz
- 80...528VAC voltage measurement input
- Current measurement input:
  - By CT /5A
  - Measuring range: 0.1...6A
  - Measurement type: true root mean square (TRMS)
  - Automatic identification of CT connection polarity (straight / inverted)
- Relay outputs:
  - 2 relays (steps), each with 1 changeover contact
  - Rated current: 8A 250VAC (AC1)
  - Individual enablement of control of the two relays
- Modular DIN 43880 housing (3 modules)
- IEC degree of protection: IP40 on front (if placed in IP40 housing and/or electrical panel), IP20 terminals.

#### ADJUSTMENTS

"C/K Step 1"	C/K ratio step 1 (0.15...2)
"C/K Step 2"	C/K ratio step 2 (0.15...2)
"Connection delay"	Step connection delay 1...60s
"Disconnection delay"	Step disconnection delay 0.1...60s
"System configuration"	Single- or three-phase wiring selection.

#### INDICATIONS

- 1 green LED for power on and inhibition time
- 2 red LEDs for relay connection.

#### Certifications and compliance

Certifications obtained: EAC; UL Listed, for USA and Canada (File E93601), as Auxiliary Devices-Modular ampere monitoring relays (with 415VAC maximum only). Compliant with standards: IEC/EN 60255-5, IEC/EN 61010-1, IEC/EN 61000-6-2, IEC/EN 61000-6-3, UL508, CSA C22.2 n°14.

### General characteristics

The DCRL series was developed with advanced functionality and produced with a dedicated ultra-compact housing. It combines modern front design with practical mounting and expandability (EXP... modules). Its main features are:

- Backlit icon LCD with excellent information display
- Alarm codes with scrolling texts, programmable in 6 languages (Italian, English, Spanish, French, German and Portuguese)
- Connection in single or three phase lines and co-generation systems with 4-quadrant operation
- Voltage measurement input independent of supply and which can be used in medium-voltage lines with VTs
- Drastic reduction in the number of switching operations
- Balanced use of steps with same power rating
- Measurement of reactive power installed for each step
- Capacitor over-current protection
- Panel over-temperature protection via internal sensor
- Accurate micro-breaking protection
- Vast choice of measurements available, including voltage and current THD with single harmonic analysis up to the 15th order.
- Wide voltage measurement range
- High accuracy of true root mean square (TRMS) measurements
- Front optical USB (CX 01 dongle) and Wi-Fi (CX 02 dongle) communication port for PC, smartphone and tablet connection
- Compatible with Ethernet communication modules EXP10 13 (only for DCRL 8)
- Compatible with Synergy supervision and energy management software, Xpress configuration and remote control software and with the Sam1 application for Android/iOS.
- Customisation with label on front (only for DCRL 8).

### Operational characteristics

- Supply:
  - Auxiliary voltage: 100...440VAC
  - Frequency: 50/60Hz ±10%
- Voltage input:
  - Rated voltage: 600VAC L-L (346VAC L-N)
  - Frequency range: 45...65Hz
- Current input:
  - Single-phase connection
  - Rated current: 1A or 5A, configurable
- Measurements and control:
  - Power factor adjustment: 0.5ind...0.5cap.
  - Voltage measurement range: 50...720VAC L-L; 50...415VAC L-N
  - Current measurement range: 0.025...1.2A for 1A full scale; 0.025...6A for 5A full scale
  - Type of voltage and current measurement: true root mean square (TRMS).
- Relay outputs (steps):
  - DCRL 3: 3 outputs
  - DCRL 5: 5 outputs
  - DCRL 8: 8 outputs
  - Contact arrangement: NO; the last is a changeover
  - Rated current: 5A 250VAC AC1
- Flush-mount housing:
  - DCRL 3, DCRL 5 (96x96mm / 3.78x3.78"); DCRL 8 (144x144mm / 5.67x5.67")
- IEC degree of protection:
  - DCRL 3, DCRL 5 IP54 and DCRL 8 IP65 on front; IP20 on terminals for all.

### Certifications and compliance:

Certifications obtained: UL Listing for USA and Canada (cULus - File E93601), as Auxiliary Devices - Power factor controllers, EAC, RCM. Compliant with standards: IEC/EN 61010-1, IEC/EN 61000-6-2, IEC/EN 61000-6-3, UL508, CSA C22.2 n°14.

### Snap-in fixing of 4 EXP... expansion modules

DCRG 8 / DCRG 8IND

**MAX 4**

### General characteristics

The DCRG automatic power factor controller satisfies the technical requirements of modern electrical systems in industry.

It is designed to satisfy them, with the option of extending its functionality by using specific EXP series expansion modules. Mention should also be made of the optical communication port as standard, for programming the controller, diagnostics and data download.

The backlit graphic LCD facilitates data reading even in poor lighting conditions and permits the display of system information clearly and intuitively.

Its main features are:

- 128x80-pixel backlit graphic LCD with texts in 10 languages: Italian, English, Spanish, French, German, Czech, Polish, Russian, Portuguese and one customisable
- Connection in single and three-phase lines as well as three-phase lines with neutral control and cogeneration systems (4 quadrants)
- Capacitive reactive power factor correction (DCRG 8IND)
- Independent power factor correction for each single phase (SPPFC)
- Use with medium-voltage lines with VTs
- Capability for correct operation even in systems characterised by high harmonic content
- Drastic reduction in the number of switching operations
- Balanced use of steps with same power rating
- Measurement of reactive power installed for each step
- Recording of the number of connections for each step
- Capacitor over-current protection on all three phases
- Panel over-temperature protection via internal sensor and external sensor
- Accurate micro-breaking protection
- Current and voltage harmonic analysis
- Quick CT programming function
- USB (CX 01 dongle) and Wi-Fi (CX 02 dongle) communication port for PC, smartphone and tablet connection
- Modbus-RTU TCP and ASCII communication protocol
- Compatible with **Synergy** supervision and energy management software, **Xpress** configuration and remote control software and with the **Sam1** application for Android/iOS
- Sending and reception of SMS, sending of e-mails with alarm diagnosis and data files, FTP Client function (with EXP10 15 module).

### Operational characteristics

- Voltage measurement circuit:
  - Auxiliary supply voltage: 100...415VAC
  - Rated frequency: 50/60Hz (±10%)
- Current measurement circuit:
  - Single and three-phase input
  - Rated current: 5A (1A programmable)
- Measurements and control:
  - Power factor adjustment: 0.5ind...0.5cap.
  - Voltage measurement range: 50...720VAC
  - Current measurement range: 0.025...6A
  - Temperature measurement range: -30...+85°C
  - Capacitor overload current measurement range: 0...250%
  - Type of voltage and current measurement: true root mean square (TRMS).
- Relay outputs:
  - 7 each with NO contact and the last as changeover
  - Rated current: 5A 250VAC AC1
- Flush-mount housing (144x144mm / 5.67x5.67")
- IEC degree of protection: IP65 on front; IP20 on terminals.

### Certifications and compliance

Certifications obtained: UL Listing for USA and Canada (cULus - File E93601), as Auxiliary Devices - Electronic power factor regulator, EAC, RCM (only for DCRG 8). Compliant with standards: IEC/EN 61010-1, IEC/EN 61000-6-2, IEC/EN 61000-6-3, UL508, CSA C22.2 n°14.

### Contactors for power factor correction

See section 2, page 2-14.

### Software: **Synergy**, **Xpress** and **Sam1**

See section 27.

### EXP expansion modules

See section 28.

“Master-Slave” power factor correction system with DCRG 8

When the correction system is divided into several panels, a DCRG 8 (Master) controller can control up to 8 DCRG 8 (Slave) controllers. The “Slave” controllers serve as remote outputs for the connection of capacitor banks that carry out the “Master” controller’s commands.

The single controllers are responsible for monitoring the electrical panel and the capacitor banks in particular, while the  $\cos\phi$  reading is centralised in the “Master” panel where the line arrives.

## Software and APP

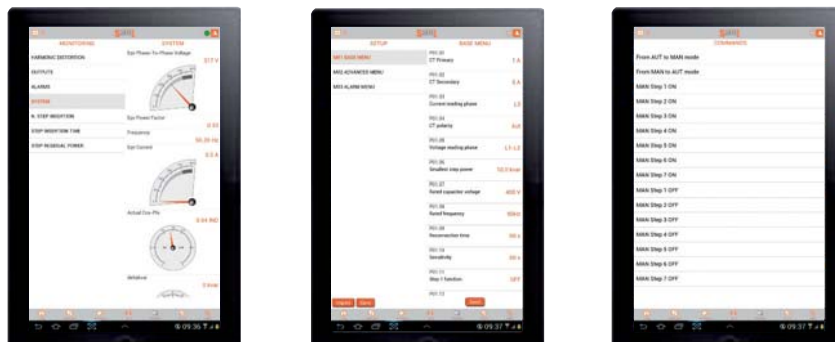

**Xpress** configuration and remote control software

**Synergy** Supervision and energy management software

**Sami** APP

## General characteristics

By using the **Xpress** software, the quick setup of the controllers can be carried out via PC, avoiding parameter programming errors.

The parameter programming of a DCRL... or DCRG 8 controller can also be saved on PC and quickly loaded into another device requiring the same programming.

It permits the following operations:

- System operation monitoring:
  - Graphical and numerical display of measurements
  - Controller status
- Capacitor efficiency control
  - Current kvar measurement for each step
  - Counters for the number of connections for each step
  - Total hour counter for connection time for each individual step
  - Access all setup parameters
  - Saving / loading parameters
  - Highlighting of changed values
  - Resetting to default values.

The **Synergy** software permits remote control and supervision of the DCRL... and DCRG 8 controllers. See section 27 for details.

This software has structures and applications based on MS SQL relational databases, and the data can be consulted using the most popular browsers.

It is a highly versatile system, simultaneously accessible to a large number of users/workstations via intranets, VPN or Internet.

## APP for smartphone and tablet

The **Sami** application allows the user to program the controller, view alarms, send commands, read measurements, download statistical data and events and send retrieved data by e-mail. The connection is made by Wi-Fi with a smartphone or tablet using the CX 02 device. It is iOS and Android compatible.

For details, consult section 27 or our Customer Service office; see contact details on inside front cover.

## Accessories Communication devices

### Accessories for DCRL and DCRG

51 C4

Order code	Description	Qty per pkg	Wt
		n°	[kg]
51 C2	Connection cable PC↔DCRL/DCRG+ EXP10 11 length 1.8m/2yd	1	0.090
51 C4	Connection cable PC↔converter 4 PX1, length 1.8m/2yd	1	0.147
51 C5	Connection cable DCRL/DCRG+ EXP1011↔Modem length 1.8m/2yd	1	0.111
51 C6	Connection cable DCRG+EXP10 11↔ converter 4 PX1, length 1.8m/2yd	1	0.102
51 C9	Connection cable PC↔Modem, length 1.8m/2yd	1	0.137
EXC CON 01	RS485/ Ethernet converter, 12...48VDC, including DIN rail fixing kit	1	0.400
4 PX1	RS232/RS485 converter drive, galvanically isolated, 220...240VAC (110...120VAC on request)	1	0.600
EXC M3G 01	RS485 Gateway/3G modem, 9.5...27VAC/9.5...35VDC, including antenna and programming cable	1	0.340

❶ Consult our Customer Service for modem details; see contact details on inside front cover.

❷ Opto-isolated RS232/RS485 analog modem, 38,400 Baud-rate maximum, automatic or manual TRANSMIT line supervision, 220...240VAC ±10% power supply (110...120VAC on request).

### Communication devices

CX 01

CX 02

CX 03

Order code	Description	Qty per pkg	Wt
		n°	[kg]
CX 01	USB/optical dongle PC↔DCRL/DCRG, for programming, data download, diagnostics and updating firmware	1	0.090
CX 02	Wi-Fi connection device for PC↔DCRL/DCRG, for downloading data, programming, diagnostics and cloning	1	0.090
For DCRG8 type only.			
CX 03	GSM penta-band antenna (850/900/1800/1900/2100MHz) for EXP10 15 expansion.	1	0.090

#### General characteristics

Communication and connection devices to connect the DCRL and DCRG power factor controllers to personal computers, smartphones and tablets.

#### CX 01

This USB dongle, complete with cable, permits connection of the power factor controller with a PC without needing to disconnect the electrical panel supply, in order to:

- Program parameters
- Copy the settings to external units
- Download data and events
- Carry out diagnostics
- Update the firmware.

The PC identifies the connection as a standard USB.

#### CX 02

Via Wi-Fi connection, the power factor controllers can be viewed from PCs, smartphones and tablets without having to connect cables, in order to:

- Program parameters
- Download data and events
- Carry out diagnosis and cloning of the device.

#### CX 03

Compatible with major worldwide mobile phone networks, thanks to the use of 850/900/1800/1900/2100MHz frequencies.

IEC degree of protection: IP67.

Fixing hole Ø10mm (0.40").

Cable length 2.5m/2.73yd.

For dimensions, wiring diagrams and technical characteristics, consult the manuals available online in the Download section of the following website:

DCTM3 400...

Order code	Step power	Qty per pkg	Wt
	[kvar]	n°	[kg]
DCTM3 400 030	Module for 30kvar step, 400...480VAC	1	4.300
DCTM3 400 050	Module for 50kvar step, 400...525VAC	1	4.300
DCTM3 400 100	Module for 100kvar step 400...525VAC	1	5.600

### Power rating available depending on voltage

	DCTM3 400 030	DCTM3 400 050	DCTM3 400 100
Current Ie [A]	43A	72A	144A
Voltage [VAC]	Power [kvar]	Power [kvar]	Power [kvar]
400	30	50	100
440	33	55	110
480	36	60	120
525	—	66	131

### General characteristics

- suitable for dynamic (fast) power factor correction
- connection at current flow zero-crossing
- capacitor over-current protection on connection
- over-temperature protection via built-in sensor.

### Operational characteristics

- 30kvar, 50kvar and 100kvar steps
- Rated operating voltage:
  - 400...480VAC for DCTM3 400 030
  - 400...525VAC for DCTM3 400 050 and DCTM3 400 100
- Auxiliary fan supply voltage: 230VAC (only for DCTM3 400 100)
- Rated frequency: 50/60Hz
- Control circuit: 8...30VDC
- Controlled voltages: 2
- Forced ventilation: DCTM3 400 100 only
- Ambient conditions:
  - Operating temperature: -10...+45°C
  - Use at higher temperatures with power derating (see page 24-19)
- IEC degree of protection: IP10.

### INDICATIONS

- Auxiliary power on
- Over-temperature alarm
- Trigger LED.

### Compliance:

Compliant with standards: EN 50178.

## REACTIVE CURRENT CONTROL RELAY

### DCRM 2

## AUTOMATIC POWER FACT CONTROLLERS

### DCRL 3 - DCRL 5

Cutout

### DCRL 8 - DCRG 8...

Cutout

## THYRISTOR MODULES

### DCTM3 400 030 - DCTM3 400 050

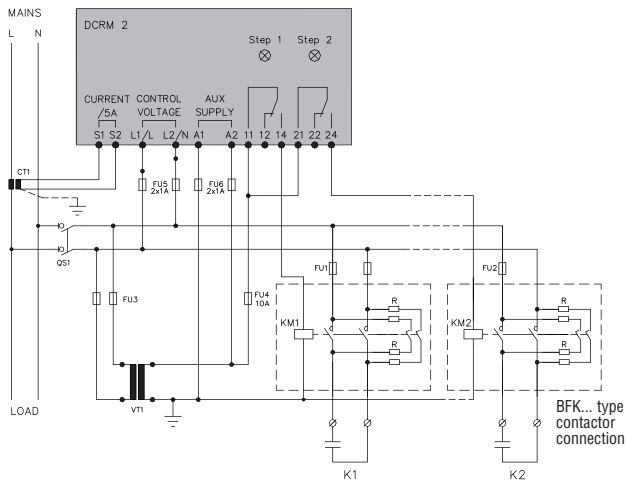

### DCTM3 400 100

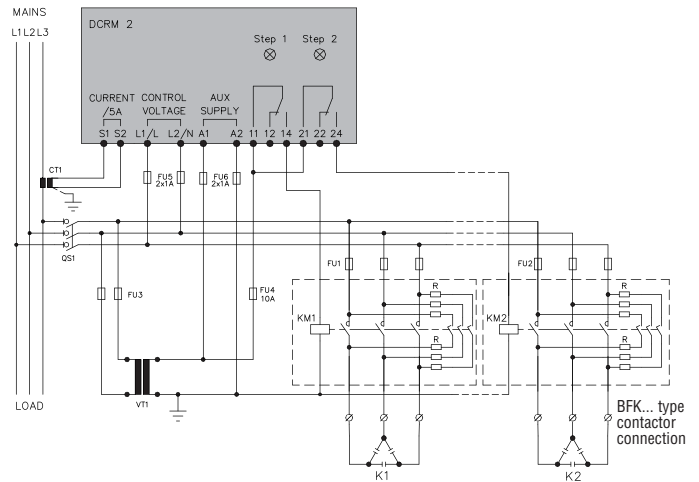

### REACTIVE CURRENT CONTROL RELAY

#### DCRM 2

##### Single-phase connection

##### Three-phase connection

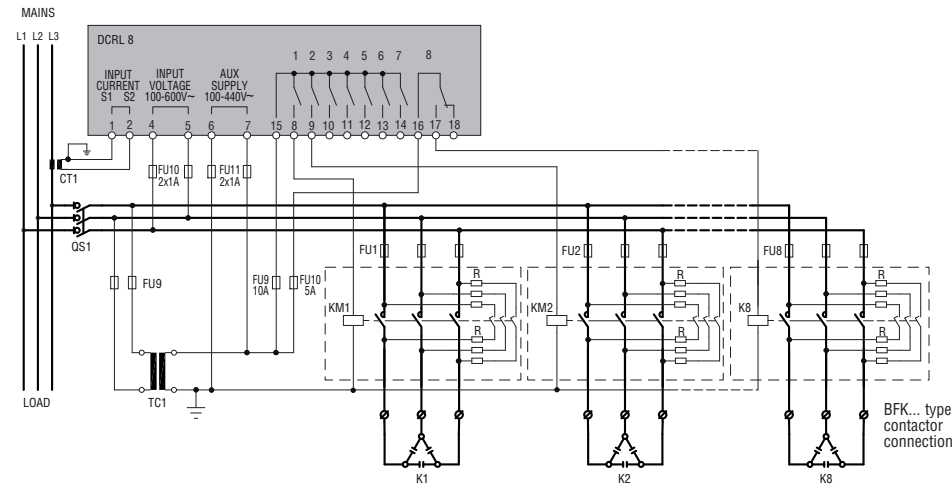

#### IMPORTANT

- For three-phase connection, the voltage measurement input must be connected between two phases; the line CT must be connected on the remaining phase.
- The polarity of the current measurement input is irrelevant.

**CAUTION!** Always disconnect the power supply when operating on the terminals.

### AUTOMATIC POWER FACTOR CONTROLLERS

#### DCRL... with BFK... type contactors

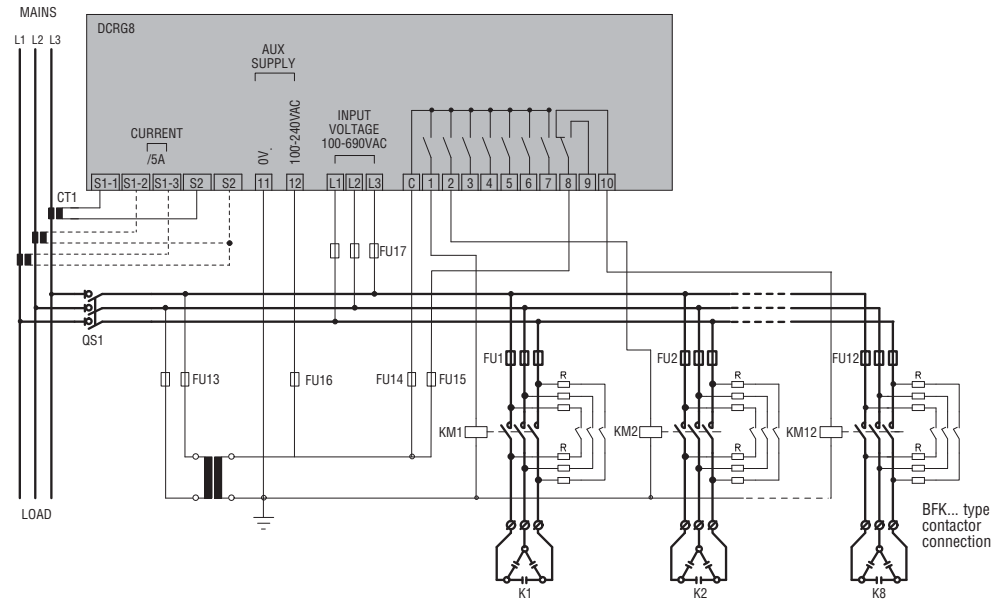

#### IMPORTANT

- For three-phase connection, the voltage measurement input must be connected between two phases; the line CT must be connected on the remaining phase.
- The polarity of the current measurement input is irrelevant.

**CAUTION!** Always disconnect the power supply when operating on the terminals.

### AUTOMATIC POWER FACTOR CONTROLLERS DCRG 8 with BF...K type contactors

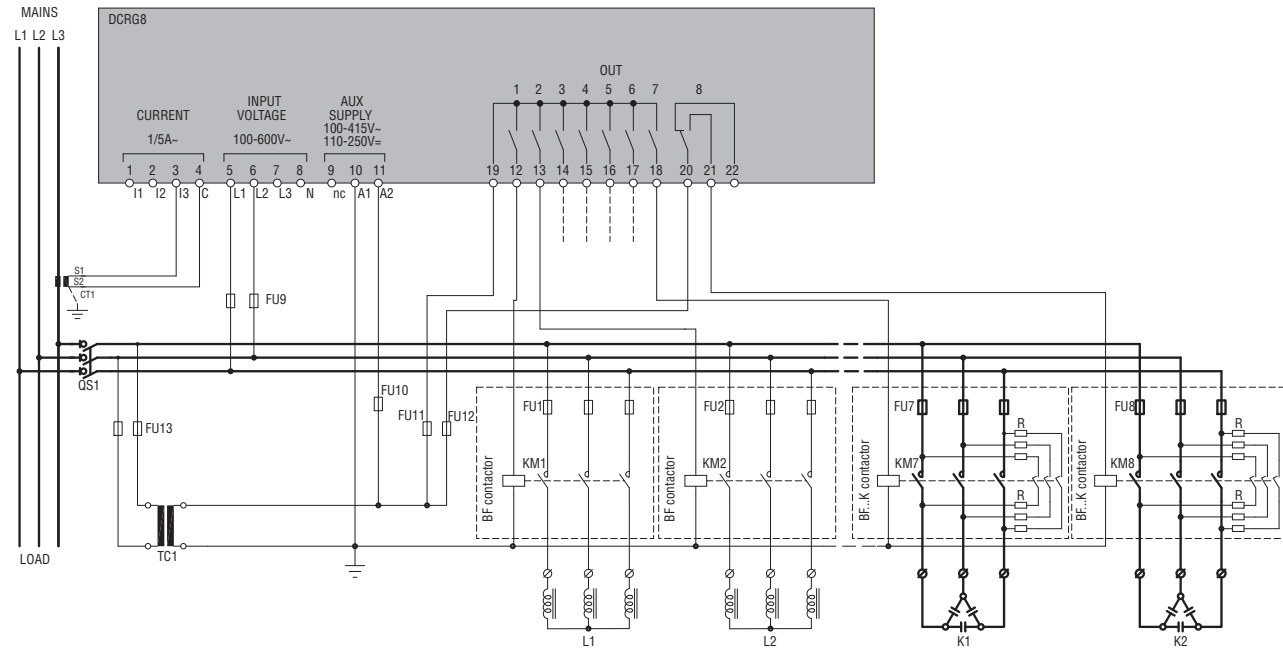

#### IMPORTANT

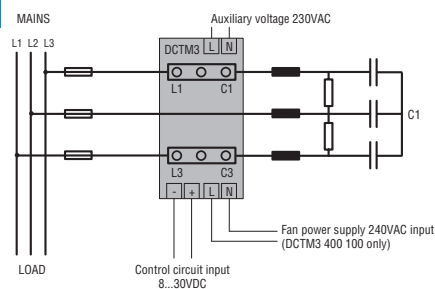

- For three-phase connection, the voltage measurement input must be connected between two phases; the line CT must be connected on the remaining phase.
- The polarity of the current measurement input is irrelevant.

**CAUTION!** Always disconnect the power supply when operating on the terminals.

### DCRG 8IND

### THYRISTOR MODULES DCTM3 400...

TYPE	DCRM 2
<b>AUXILIARY SUPPLY CIRCUIT</b>	
Rated auxiliary voltage (Us)	380...415VAC standard 220...240VAC and 440...480VAC on request <sup>①</sup>
Operating range	0.85...1.1 Us
Rated frequency	50/60Hz ±5%
Maximum power consumption/dissipation	4.4VA / 2.4W
Micro-breaking immunity	≤17ms
No-voltage release	≥8ms
<b>VOLTAGE INPUT</b>	
Maximum rated voltage Ue	480VAC <sup>①</sup>
Measuring range	80...528VAC
Frequency range	50 or 60Hz ±1% self configurable
Measurement input impedance	>1MΩ
Type of connection	L1-L2 or -N
<b>CURRENT INPUT</b>	
Type of connection	By current transformer (CT)
Rated current Ie	5A AC
Measurement range	0.1...6A
Type of input	Shunt supplied by external current transformer (low voltage). Max. 5A
Measurement method	True RMS value
Overload capacity	+20% Ie
Overload peak	10In for 1s
Dynamic limit	160A for 10ms
Burden	≤0.6W
<b>ADJUSTMENTS</b>	
C/K step 1 and 2	OFF / 0.15...2
Connection / disconnection	1...60s
System configuration	3-phase - 1-phase
<b>RELAY OUTPUTS</b>	
Number of relays	2 (each with 1 changeover)
Rated operational voltage	250VAC
Maximum switching voltage	400VAC
IEC conventional free air thermal current (Ith)	8A
IEC/EN 60947-5-1 and UL/CSA designation	B300
Electrical life with rated load	10 <sup>5</sup> cycles
Mechanical life	30x10 <sup>6</sup> cycles
<b>INSULATION (input-output)</b>	
Rated insulation voltage	480VAC
<b>CONNECTIONS</b>	
Maximum tightening torque	0.8Nm (7 lbin; 7-9 lbin according to UL/CSA)
Conductor section min....max.	0.2...4.0mm <sup>2</sup> (24...12 AWG; 18...12 AWG according to UL/CSA)
<b>AMBIENT CONDITIONS</b>	
Operating temperature	-20...+60°C
Storage temperature	-30...+80°C
<b>HOUSING</b>	
Material	Self-extinguishing polyamide

<sup>①</sup> UL/CSA certification obtained with 415VAC maximum.

TYPE	DCRL 3	DCRL 5	DCRL 8	DCRG 8 / DCRG 8IND
<b>AUXILIARY SUPPLY CIRCUIT</b>				
Rated supply voltage (Us)	100...440VAC		100...415VAC	
Operating range	90...484VAC		90...456VAC	
Rated frequency	50Hz; 60Hz		50Hz; 60Hz	
Maximum power consumption	9.5VA		7VA	27VA
Maximum power dissipation (excluding power dissipation from the output contacts)	3.5W		2.5W	105W
<b>VOLTAGE CIRCUIT</b>				
Control voltage	100...600VAC L-L; 100...346VAC L-N		100...600VAC L-L; 100...346VAC L-N
